YOWFACTOR

I am a Full Stack Developer building with Ruby on Rails and modern JavaScript, backed by over 10 years of leading digital projects end to end. I bridge engineering, product and business — I write the code and understand why it matters to the people paying for it. Recently completed Le Wagon's intensive bootcamp and now in a focused build-and-study phase deepening Rails, React, and TypeScript, with AI-assisted, agentic workflows (Claude Code) built into how I work.

ACHIEVEMENT

Built **Content Flow** in 2 weeks with my coding team at Le Wagon — an AI-integrated content creation app on Ruby on Rails 8, featuring a full-fledged integration of RubyLLM.

Built a dedicated KVM-over-IP network for the **rbb** across two broadcast production sites in Berlin and Potsdam, merging broadcast and network infrastructure.

STACK

Backend — Ruby on Rails 8, PostgreSQL, REST APIs

Frontend — JavaScript (ES6+), Hotwire (Turbo/Stimulus), HTML5, CSS3/Tailwind CSS; learning React + TypeScript

Tooling — Git/GitHub, VS Code, Heroku, Claude Code, Figma

Practice — Spec-Driven Development (OpenSpec + Claude Code), Responsive Design, MVC Pattern, Git Workflow, Pair Programming

PROJECT

Mu Protocol — [Web](#) · [GitHub](#)

At Mu Protocol, I was in charge of managing the developer team and focusing on building our MVP.

Nimiq — [Web](#) · [GitHub](#)

At Nimiq, I optimized the marketing efforts and website to facilitate adoption of their cryptocurrency.

European Film Academy — [Web](#)

At the European Film Academy, I led the development of the new website and member app, and set up a new CRM solution.

Francotyp-Postalia — [Web](#)

Relaunched Francotyp-Postalia's website successfully within 3 months.

EXPERIENCE

Technical Consultant — YOWfactor, Berlin · *Since 2021*

Plan and deliver digital projects for SMBs and start-ups: digital process improvement, business-model renewal, and technology selection. Increasingly hands-on with implementation.

Technical Project Manager — Rundfunk Berlin-Brandenburg (rbb), Berlin · *2023 – 2025*

Led modernization of broadcast technology across two production sites. Built a dedicated KVM-over-IP network, merging broadcast and network infrastructure. Owned planning, vendor coordination, and delivery.

Digital Team Lead — Various agencies, Berlin · *2015 – 2021*

Account Director and Team Lead roles (P.E.R. Agency, ACID21, spacedealer). Led teams, owned 7-figure budgets, ran KPI-based campaigns, and advised clients on digital strategy and marketing technology.

EDUCATION

AI Software Development — Le Wagon Berlin · *2026*

Full-stack web and AI application development.

Web Development — Le Wagon Berlin · *2020–2021*

Software developer curriculum — built my own web applications.

Web Development — CBM Bremen · *2014*

Software developer curriculum — HTML5, CSS3, JavaScript, PHP, MySQL.

M.B.A. (Diplom-Kaufmann), with distinction — Leuphana University Lüneburg · *2003*

Top 15% of class. (EQF Level 7)

SKILL

Method — Agile/Scrum, cross-functional collaboration with Product & Design, Business Model Canvas, Design Sprint

Software — VS Code, Claude Code, Git/GitHub, Figma, Jira, Notion

Commerce & CMS — Shopify, Shopware, OXID eShop · WordPress, Contentful, Prismic

Language — German (native) · English (C2) · French (B2)
