ABOUT

Technical Consultant delivering complex cross-team software programs with a developer's own understanding of the tools and workflow. I combine technical and business expertise with proven leadership to align interdisciplinary teams, improve delivery processes, and ship complex projects end to end.

Core Strength — project, program, and stakeholder management · cross-team collaboration and facilitation · translating strategy into measurable delivery outcomes.

ACHIEVEMENT

Built **Content Flow** in 2 weeks with my coding team at Le Wagon — a content creation app using Ruby on Rails 8 infrastructure featuring a full-fledged integration of RubyLLM.

Delivered a dedicated KVM-over-IP network for the **rbb** across two broadcast production sites in Berlin and Potsdam — a complex hardware + software + network program spanning planning, vendor coordination, risk mitigation, and rollout, merging broadcast and IT infrastructure end to end.

EXPERIENCE

Technical Consultant — YOWfactor, Berlin · *Since 2021*

Plan and deliver digital projects for start-ups and established companies, renewing business models and systematically establishing business, product, and market fit. Focus on project management, data-driven marketing, and digital business models.

Technical Project Lead — Rundfunk Berlin-Brandenburg (rbb), Berlin · *2023 – 2025*

Led modernization of broadcast technology for the main production sites in Berlin and Potsdam. Delivered a dedicated KVM-over-IP network, merging broadcast and network infrastructure. Owned planning, vendor coordination, and delivery.

Digital Team Lead — Various agencies, Berlin · *2015 – 2021*

Account Director and Team Lead roles (P.E.R. Agency, ACID21, spacedealer). Led teams, owned 7-figure budgets, ran KPI-based campaigns, and advised clients on digital strategy and marketing technology.

Digital Marketing Manager — YOWfactor, Bremen · *2013 – 2015*

Advised founders and start-ups on digital marketing and online growth. Completed a 6-month web development qualification and targeted training (Google Analytics Academy, Codecademy) to strengthen technical execution. Built and managed a WordPress site on a VPS.

Digital Marketing Manager — VITAdisplays International Holding GmbH, Dörverden · *2011 – 2013*

Scaled and optimized the e-commerce business with double-digit growth across core KPIs. Established and led the digital marketing function with emphasis on SEM strategy and channel performance.
